DAY DAWNING.

The Democratic Hosts Marching on to Glorious Victory Make the Earth Resound With Shouts.

The Bay State, Arkansas, Iowa, Indiana and a Good Word All Along the Line.

The Republicans Probably Carry Vermont and Send for Logan to Help Save Wisconsin.

The Bay State Boys.

WORCESTER, Mass., Sept. 3.—The democratic state convention was called to order by General Collins, who congratulated the democratic party upon the certainty of success in November. The officers of the state committee were made the temporary officers of the convention. Committees were appointed. Twenty-two cities and 325 towns were represented by 1,650 delegates. Jonas H. French was made permanent chairman.

He addressed the convention at some length, every allusion to Governor Cleveland being loudly applauded. The various committees were then appointed and the convention took a recess.

THE MASSACHUSETTS BLAINEITES.

BOSTON, Sept. 3.—The republican state convention was called to order this morning by Chairman Lodge, who made no address. A motion that the chairman and secretary of the state committee be invited to act as temporary officers of the convention was adopted. Committees were then appointed. The committee on permanent organization reported for president Robert M. Morse, jr. President Morse then addressed the convention. He noted the absence from the convention of some of his former associates as men of high character, who thought it necessary to part company with old comrades for a while, and eulogized Blaine.

Mr. Lodge moved the nomination of George D. Robinson for governor by acclamation. The motion was carried without a burst of enthusiasm.

IOWA COMING INTO LINE.

DAVENPORT, Ia., Sept. 3.—The Iowa state democratic convention met at 10 o'clock this morning, nearly all delegations being full. The convention was called to order by Judge Kinnie, chairman of the state central committee. An address of welcome to the convention was then delivered by Ernest Clausen, mayor of Davenport. Hon. Fred Lehman, of Des Moines, was chosen temporary chairman.

After the appointment of the several committees the convention adjourned until 2 p. m.

FOR CONGRESS.

PITTSBURG, Sept. 3.—The democratic county convention this morning nominated James H. Hopkins for congress in the Twenty-second district and Morrison Foster in the Twenty third district.

WILL PROBABLY CARRY THE STATE.

NEW YORK, Sept. 3.—Warren Gibbs, chairman of the Vermont republican committee, telegraphs to the evening papers, as follows: "Burlington, Vt., Sept. 3.—Returns do not indicate that our majority will be less than 23,000."

A LARGE DEMOCRATIC MAJORITY.

LITTLE ROCK, Ark., Sept. 3.—Thus far election returns have not been received from more than about two-thirds of the seventy-five counties. The indications are that the entire democratic state ticket will receive a majority of thirty thousand or more. In many counties the independents and republicans have elected their local candidates and members of the general assembly. The amendment prohibiting the levying of any tax or the making of any appropriation to pay the Halford railroad aid and levee bonds has evidently been carried by a large majority.

THE RESULT IN VERMONT.

WHITE RIVER JUNCTION, Vt., Sept. 3.—Thirty additional towns heard from today give Pingree, republican, for governor, 5,251; Reddington, democrat, 2,603; Soule, greenback, 1,591; scattering, 17. Pingree's majority over all is 2,472. This added to the vote of the towns which were reported last night gives, in the 144 towns heard from, Pingree, 29,913; Reddington, 14,593; Soule, 413; independent and scattering, 2,831. Giving Pingree a majority over all of 14,645. The same towns gave Fonham, republican, in 1880, 33,205; Phelps, democrat, 15,445; greenback, 455.

THEY ARE ALL THERE.

MADISON, Wis., Sept. 3.—The presence of General Logan and the popular demonstration in his honor, combined with the meeting of the republican state convention, has crowded the city with politicians and sight seers. The prohibitionists are here in force arguing their claim on the republican party and preparing for their state convention which occurs to-morrow.

The republican state convention was called to order at 12:15 o'clock by Chairman Taylor, of the state central committee, who urged that the business be conducted with dispatch, owing to the mass meeting to be addressed by General Logan.

The permanent organization was perfected by the nomination of Ogden A. Fithers, of Janesville, as presiding officer, there being no temporary organization. On assuming the chair, Mr. Fithers thanked the convention in a strong Republican speech.

The present state officers were renominated by acclamation.

Indiana Good for 10,000 at Least.

WASHINGTON, Sept. 3.—A special correspondent to the Cincinnati *Enquirer* from this city says: "I was shown a letter to-day from a prominent Indiana democrat which says: 'Everything looks better for us in Indiana than I ever saw it before. I do not think Cleveland's majority will be less than 10,000. John Lamb's prospects in the Terre Haute district for re-election to congress are brightening every day. He spoke there last Wednesday night before the largest crowd ever seen at a political meeting in Terre Haute. His friends are enthusiastic and confident, and the other side is scared to death. It will be a desperate fight, but I think Lamb will win it.'

Congressman Matson, of Indiana, arrived here to-day. He is quite confident of democratic success in the Hoosier state, and thinks that Cleveland will be elected. He says the lowest democratic estimate in Indiana is ten thousand majority."

THE TRUTH

About the Greely Expedition Hard to Reach--The Last Story Pronounced a Lie.

Death of Bishop Pierce--The Cholera Increases in Violence--The Coal Strikers.

Numerous Casualities and Various News Notes Caught, Classed and Condensed.

The Greely Story Denied.

CLEVELAND, Sept. 3.—Sergeants Brainard and Long and Private Connell, of the Greely Arctic expedition, are here under an engagement at Drew's museum. They were shown this morning's telegrams from Washington, stating that an army officer, who has seen the diaries of the expedition, says the survivors when found were in two parties, one headed by Brainard and the other by Long, living separately as two tribes and refusing to speak to each other; that Greely was an invalid for the last two months and the party headed by Brainard cared for him like a child; that stealing rations was a common practice, and that the hunters sent out for birds concealed them if any were killed. Each of these statements Brainard, Long and Connell deny emphatically. All insist that the party was not divided but while five slept in the wall tent, Brainard and Long slept together under the fly of the tent because the interior was not large enough for all. Sergeant Brainard says that Lieutenant Greely walked out every day and was able to hold complete command of the party, which he did throughout. All agree that nobody except Henry was shot.

The special report of the same army officer says: "Brainard when found was much stronger than the rest, and when he came aboard the Bear surprise was expressed at it, and when he was asked why that was, he said: 'Oh! I could eat the stuff and digest it and the others could not.' When some of the rescuing party remarked on the absence of Dr. Pavy's body and expressed wonder as to what had become of it, Brainard said: 'He is all gone. I finished the last of him just before you arrived.'" This being shown Sergeant Brainard, he said: "I don't know who the army officer is, but whoever he may be he is a slanderer. I was not the strongest of the party, and morever was not on the Bear but came home on the Thetis. The story is a lie made out of whole cloth." Sergeant Long and Private Connell corroborate this denial.

Thrown Under a Train.

TROY, N. Y., Sept. 3.—Andrew Jackson, a wealthy farmer of Hammond's station, four miles from Mechanicsville, Saratoga county, was found on the railroad early this morning with a deep cut in his head and with both legs cut off. He lived an hour. Before dying he said that Wm. Botan and John Duffy threw him under the train. Botan's father recently beat Jackson in a law suit and they were enemies ever since. Young Botan was arrested at Mechanicsville, but denied the charge. Duffy will be arrested. Both will be arraigned at Mechanicsville this afternoon. There is intense excitement at Mechanicsville and vicinity where the parties are all well known and respected. Opinion varies as to the truth of Jackson's dying statement.

It Went Off Too Quick.

SHARON, Pa., Sept. 3.—Last evening while six men were blasting a huge piece of iron in the bottom of the stack of the Valley furnace, a blast of giant powder was prematurely exploded by a spark of fire from a hammer. One man was injured fatally and four more were seriously burned. The following is a list of the injured: William Ayres, terribly mangled about the legs, eyes and body; William Malony, injured in the eyes and hands; G. Shiverton, burned badly in the face, eyes and arms. All others were burned but not seriously. Ayres was the support of his father, mother and seven children.

The Cattle are Healthy.

CYNTHEANA, Ky., Sept. 3.—Dr. M. R. Trumbau, United States veterinary inspector, was ordered here, to make an examination of the Jersey heifers of Frisbe & Lake, because of the report that twenty-five diseased cattle had been bought by them two months ago from M. J. Clark, of Geneva, Ill. After a thorough examination he reports the cattle to be in a sound healthy condition with no signs of pleuro-pneumonia.

Death of Bishop Pierce.

AUGUSTA, Ga. Sept. 3.—Bishop Pierce, senior bishop of the M. E. church south, died this morning.

Bradford Kinney Pierce was born in Royalton, Vt., February 3, 1819. He graduated at Wesleyan university in 1841 and was received into the New England Methodist Episcopal conference in 1843. He served as pastor in various towns in New England and was the editor of various denominational papers.

It is a beautiful oil painting of the Virgin Mary and her child in the midst of a halo of angels and flowers. The picture is a splendid copy of the original by Deschwanden, the famous Swiss artist, now dead. A singular coincidence is that Bishop Dwenger years ago purchased the original painting and presented it to his congregation then at St. Mary's Ohio. The magnificent portrait received to-day hangs on the south wall of the Cathedral as a gift to the congregation from the distinguished prelate.

THE early voting states start off very well for the democracy.

DEMOCRATS, be active, be vigilant, be steadfast and the victory will come.

WE would call Mr. Elkins' attention to the fact that Benny Butler is wandering around loose in Michigan.

IF not too impertinent we would beg leave to inquire of Mr. Calkins if he has heard from the widow Duncan lately.

MR. CALKINS is no doubt brilliant. Very few men could make so good a profit on a piece of swamp land as he did.

THERE are in the United States treasury at Washington but little short of 5,000 tons of silver dollars, or $136,000,000.

WILL the people of Indiana elect a man who swindeled the school fund of the state out of $700 to the highest office within their gift?

CALKINS assessed or encouraged the assessment of an office holder for political purposes. Does Mr. Calkins know that he violated the law when he did this?

WE would call Mr. B. F. Harrison's attention to the old truism that a bad resolution is better broken than kept. This refers to his resolve to give Blaine the electoral vote of the Hoosier state.

THE Detroit *Free Press* says: "It does not require a great deal of political sagacity to see that the republican campaign in Michigan is up-hill work, with the road in a frightfully bad condition."

DR. DAVID S. HART, of Stonington, is said to be the oldest school teacher in Connecticut. He was born in 1799, began teaching in 1816, was graduated at Yale in 1823, and does not use spectacles yet.

SENATOR PENDLETON is pulling off his coat. He said to an interviewer on Saturday: "I am now going to work for the democratic ticket and have made several engagements to speak. I will spare no time or labor to insure its success."

THE conservator of Wilbur F. Storey, proprietor of the Chicago *Times*, who is now an imbecile, has given bond in the sum of $3,000,000. Not very many years ago Mr. Storey failed in the newspaper business at LaPorte, this state.

A TERRIBLE picture of the condition of Cuba is furnished in a late statement of a Havana newspaper. There are over 4,000 untenanted houses in that comparatively small city, while in some portions of the country houses are let free of rent, in order to secure the property from depredation and decay.

GEN. W. S. HARNEY is the oldest army officer now living. He is on the retired list.

IN Arkansas Monday the democratic gubernatorial candidate and the entire state ticket were elected by majorities ranging from 15,000 to 20,000.

BLAINE is in very poor health and it is said his real condition is kept from the people. He telegraphed his wife to come home at once which indicated to many that he was very seriously ill.

WILL the people of Indiana elect a man to the highest office in the gift of the state who openly boasts of having assessed office holders for campaign purposes in open violation of the law?

STATISTICS taken from *LaPay's Daily Journal* show that the suicides from 1872 to 1882 were as follows: In 1872, 890; in 1873, 975; in 1874, 1,015; in 1875, 922; in 1876, 1,024; in 1877, 1,139; in 1878, 1,058; in 1879, 1,225; in 1880, 1,261; in 1881, 1,343; in 1882, 1,389. That is to say, in Italy 10,952 have committed suicide in ten years.

WILLIAM DANIEL, a Maryland republican, the candidate for vice president on the prohibitian ticket, was interviewed in Chicago for *The Times* of that city. He expressed the belief that the temperance vote will have the effect to throw New York, Ohio, Wisconsin, Michigan and Kansas into the democratic column, and that Cleveland is at the front in the presidential contest.

CANADIANS are smart fellows after all. One of them has invented a new method of fishing. He takes a flock of about thirty geese to the water, and to the legs of each one he ties a fishing line with baited hooks attached. Then he says "Shoo," and the geese swim out. As soon as a goose gets a bite she becomes frightened and rushes back to the shore, and the man gleefully takes the fish off the hook and sends her out again.

FROM statistics the fact is shown that the Ohio valley is the most fully occupied body of land, Ohio having 94 per cent. of her surface in farms, Indiana 86.9, Illinois 86.4, Kentucky 84, and no other state as much. It is shown that already three-tenths of the manufactures of the United States are produced within the "Central West," in less than three-tenths of the area of the country, within half a century from its settlement.

"IT is my deliberate opinion that Mr. Blaine acts as the attorney of Jay Gould. Whenever Mr. Thurman and I have settled upon legislation to bring the Pacific railroads to terms of equity with the government, up has jumped James G. Blaine, musket in hand, from behind the breastworks of Gould's lobby to fire in our backs."—*Senator Edmunds, of Vermont.*

THE republican committee claims that it has been reduced to great poverty, but the statement is disputed. It is asserted that at the proper time the doubtful states will be flooded with the standard coin of the realm, and that the pleading of the want of it is only a blind. Democrats should not be misled nor thrown off their guard, but should be prompt to meet any such dodges.

NEXT Friday has been named as the time for a ratification meeting of Cleveland and Hendricks by Tammany Hall. This is cheering news to the democracy throughout the country. There is every indication that Tammany will give its hearty support to the democratic ticket, and this makes victory certain. Without their aid Cleveland's election was a strong probability and with it it becomes a certainty.

THE probable result of the Vermont election is certainly not flattering to the republicans. As shown by THE SENTINEL the majority should reach at least 25,000 to give Blaine any indorsement, but it is asserted that it will fall far below this. Vermont is a solid republican state and with favorable canvass and popular candidates can at all times be depended upon to start the ball with a good stroke. This year it has not come up to the expectations of the republicans, but has given much encouragement to the democrats.

ROBERT BONNER said to an interviewer the other day; "Will a horse ever trot in 2:00? That is a difficult question to answer. When Hiram Woodruff, the great horseman, said twenty years ago that some day 2:10 would be beaten by a trotting horse, he was called a false prophet and laughed at. Hiram's prophecy has come to pass, and the skeptics have been brought to grief. Maud S. is the fulfillment of his prophetic vision. I am not a prophet like Hiram and do not like to be laughed at, so I will not prophesy. But I will say that I do not believe the trotting horse has reached the possible limit of speed. I have seen the record steadily reduced from 2:40 to 2:09½. Why should it not be lowered still more?"

Nothing Made in Vain.

We are told that nothing was made in vain; but what can be said of the fashionable girl of the period? Isn't she maiden vain? Hood's Sarsaparilla is made in Lowell, Mass., where there are more bottles of it sold than of any other sarsaparilla or blood purifier, and it is never taken in vain. It purifies the blood, strengthens the system and gives new life and vigor to the entire body. 100 doses $1.

A GENTLEMAN who has traveled through Ohio, Indiana and Illinois thus sums up the republican vote:

1. Those members of the republican party who hold federal or state offices, or are otherwise actively engaged in politics, are almost to a man faithful to the party nominations, although a surprising number of them admit that sturdy Arthur was their first choice.

2. Those republicans whose livelihood is obtained from private occupations and whose political activity goes further than voting at general elections, are almost to a man averse to Blaine. Some will vote for him in the end, out of regard for supposed consistency. Others will abstain from voting, and a plurality will vote for Cleveland. They would all have voted for Arthur, and the most of them would, in addition, have taken some active interest in the canvass.

THERE is another project on foot to send an expedition in search of that mythical wonder, the north pole, to be in charge of Engineer Melville. This proposition is suggestive of another chapter of horrors which followed the Greely expedition and means the useless sacrifice of human life for no other purpose than to satisfy the demands of science. Expeditions have been sent to the icy regions of the north for many years, vast sums of money have been expended in their equipment and for their release from the frozen fortresses and many valuable lives have been offered upon this shrine and yet without attaining the object of the search. Is it not high time that this effort to solve so costly a mystery should be abandoned? The world will move with its customary progressive tread and will increase in learning and in wealth just as rapidly if the north pole is never discovered and if a ship never again enters upon this perilous voyage.

A SPECIAL correspondent of the Louisville *Courier-Journal* who has traveled extensively throughout the states which republicans call "doubtful" and who has, as he says, carefully canvassed the situation in each state asserts that New York is above question; that she will give her electoral vote to Cleveland and Hendricks in spite of Blaine and of Butler and even if Tammany should fail to support him; that New Jersey is reliably democratic; that Ohio is reasonably safe; that Virginia will cast her vote for the democratic nominees; that Indiana will remain true to her favorite son in spite of Mr. Harrison's promise to deliver her votes to Blaine; that the prospects are bright in Wisconsin; that Carter Harrison will give them a terrible hard race in Illinois, and with a good chance of winning first money; that the fusion in Michigan will give the electoral vote of that state to the democrats and that the republicans are not near so confident of California as they were. In view of all this good and cheering news it is in order for some one to move to make it unanimous.

THE HON. THAD. C. POUND, of Wisconsin, who has written such a forcible letter denouncing Blaine, whom he charges with corruption in various forms, concludes his letter thus: "While Blaine is known to be unworthy, Governor Cleveland has demonstrated his fitness and worthiness for the position by his fidelity, ability and integrity in the discharge of his duties as the mayor of Buffalo and governor of the great state of New York. If one-half of the republican voters who agree in this opinion have the courage of their convictions and vote conscientiously he will be triumphantly elected."

A TRIANGULAR TUSSLE.

The Ellison Damage Case Develops into a Railroad Fight--The Plaintiff Has a Nice Thing and May Get the Claim.

As noted yesterday, the case of Phoebe Ellison against the Grand Rapids and Nickel Plate roads is on trial in the circuit court. This morning a somewhat sensational feature of the case developed itself. The railroad attorneys are not fighting the Ellison heirs, but are energetically trying to shift the responsibility on each other. Hon. Robert C. Bell represents the Nickel Plate and, of course, he will strive to prove that the Grand Rapids road is alone responsible for the collision at the junction west of the city, some months ago. Judge Chapin, representing the Grand Rapids road, will try to make a similar point for his corporation, and thus the fight wages. This suit is for $5,000, instituted jointly against the roads named, for causing the death of Mrs. T. E. Ellison, mother of the plaintiff. The circumstances are familiar and under the queer course pursued by the railroad's counsel, the jury is likely to return a verdict for the full plaintiff.

When Howard wrote: "I find a pity hangs upon his breast," the fellow evidently had a cold and had not yet been informed that Dr. Bull's Cough Syrup was the only safe remedy.

Frank Waring has just received a telegram that General Butler will positively be at Fort Wayne October 1, and speak at the opening of the great northern Indiana fair.

If you are troubled with sores, aches, pains and general weakness of the various bodily functions, don't be deceived by the advertisements of bitters, kidney medicines, etc., whose certificates of pretended cures, are often paid for. Put your trust in that simple remedy called Dr. Guysott's Yellow Dock and Sarsaparilla. It will cure you by purifying the blood and strengthening the weak portions of your body. You will also find it very refreshing to the brain and nervous system. The proprietors receive hundreds of letters bestowing upon it the highest praise.

Beginning Operations.

The English court of appeal, London, England, has granted to the Charles A. Vogeler company, Baltimore, Md., a perpetual injunction with costs, against Parrott & Co., of that city, for infringement of the former's celebrated trade mark, St. Jacobs Oil. The decision enjoins and restrains, perpetually, the said Parrott & Co., from using the term "St. David's Oil," or any similar term, as well as the words, "The Great German Remedy." Eminent English and American legal talent figured in the case. The counsel for the Charles A. Vogeler company, of which latter, Mr. H. D. Umbstaetter, was personally present, were Queen's Counsel Theodore Aston, assisted by John Cutler and Theodore MacKenna, of London, Rowland Cox, of New York, and General William Henry Browne, of Washington, D. C. It is the determination of the latter firm to promptly prosecute all infringements upon their rights, whether at home or abroad, and they offer a liberal cash reward for information that will lead to the conviction of any person or persons, in any way so offending.

O. O. Stealey, the well known correspondent, claims that the solid south, New Jersey, Indiana and Wisconsin, are certain for Cleveland and Hendricks, with an even chance of carrying New York, Ohio, Michigan, California and Connecticut.

Outward applications of so-called remedies must prove worthless with diseases of the blood, and it is now universally admitted that neuralgia and rheumatism are diseases of this character. Athlophoros strikes at the root of rheumatic and neuralgic troubles by correcting an unhealthy condition of the blood. Rev. Charles E. Harris, pastor of St. Johns St. M. E. Church, New Haven, Conn., testifies to the valuable quality of this medicine. He was cured of a severe case of acute rheumatism by one bottle of the new and powerful specific.

Of Great Value to Vocalists

UNIONVILLE, WESTCHESTER CO., N. Y.
August 20, 1882.

I had carelessly exposed myself and sustained a very severe and tight cold on my chest and in my throat. I procured Allcock's Porous Plasters and applied one on the chest, well up on the throat, and relief came readily; the soreness of my chest was removed, and my vocal organs were kept clear the entire past winter, enabling me to fulfill public engagements in different parts of this country.

No more may be said than that Allcock's Porous Plasters, if applied by afflicted vocalists, will greatly assist their vocal rendition in public.

B. FRANKLIN CHURCH.

General Butler has stated on a speaking tour throughout the northwest.

ADVICE TO MOTHERS.—MRS. Winslow's Soothing Syrup should always be used when children are cutting teeth. It relieves the little sufferers at once; it produces natural, quiet sleep by relieving the child from pain, and the little cherub awakes as "bright as a button." It is very pleasant to taste. It soothes the child, softens the gums, allays all pain relieves wind, regulates the bowels, and is the best known remedy for diarrhœa, whether arising from teething or other causes. Twenty-five cents a bottle.
